Minet is a well-known and trusted brand across many of our markets. It is a name with deep roots in Africa.

The rebirth of Minet marks a historic milestone in the risk advisory industry. Minet is a pan-African brand with an extensive African footprint, owned and led by Africans for Africans.

A HISTORIC MILESTONE IN THE RISK ADVISORY INDUSTRY

Minet and Aon will continue to have a close working relationship, which leverages Aon's global expertise, strengthened by our local knowledge and experience.

As Aon's largest global network correspondent, Minet will be the partner of choice for businesses across ZAMBIA and continue to provide the same exceptional service to all clients across Africa.

Our prime focus will continue to be the provision of unparalleled service in all that we do and provide the right returns to all stakeholders.

We look forward to mutual success as we embark on this new journey.

Humphrey Kabwe

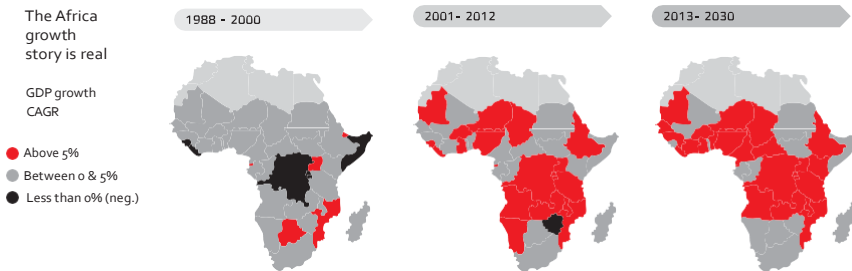

Managing Director
MINET ZAMBIA

AFRICA RISING

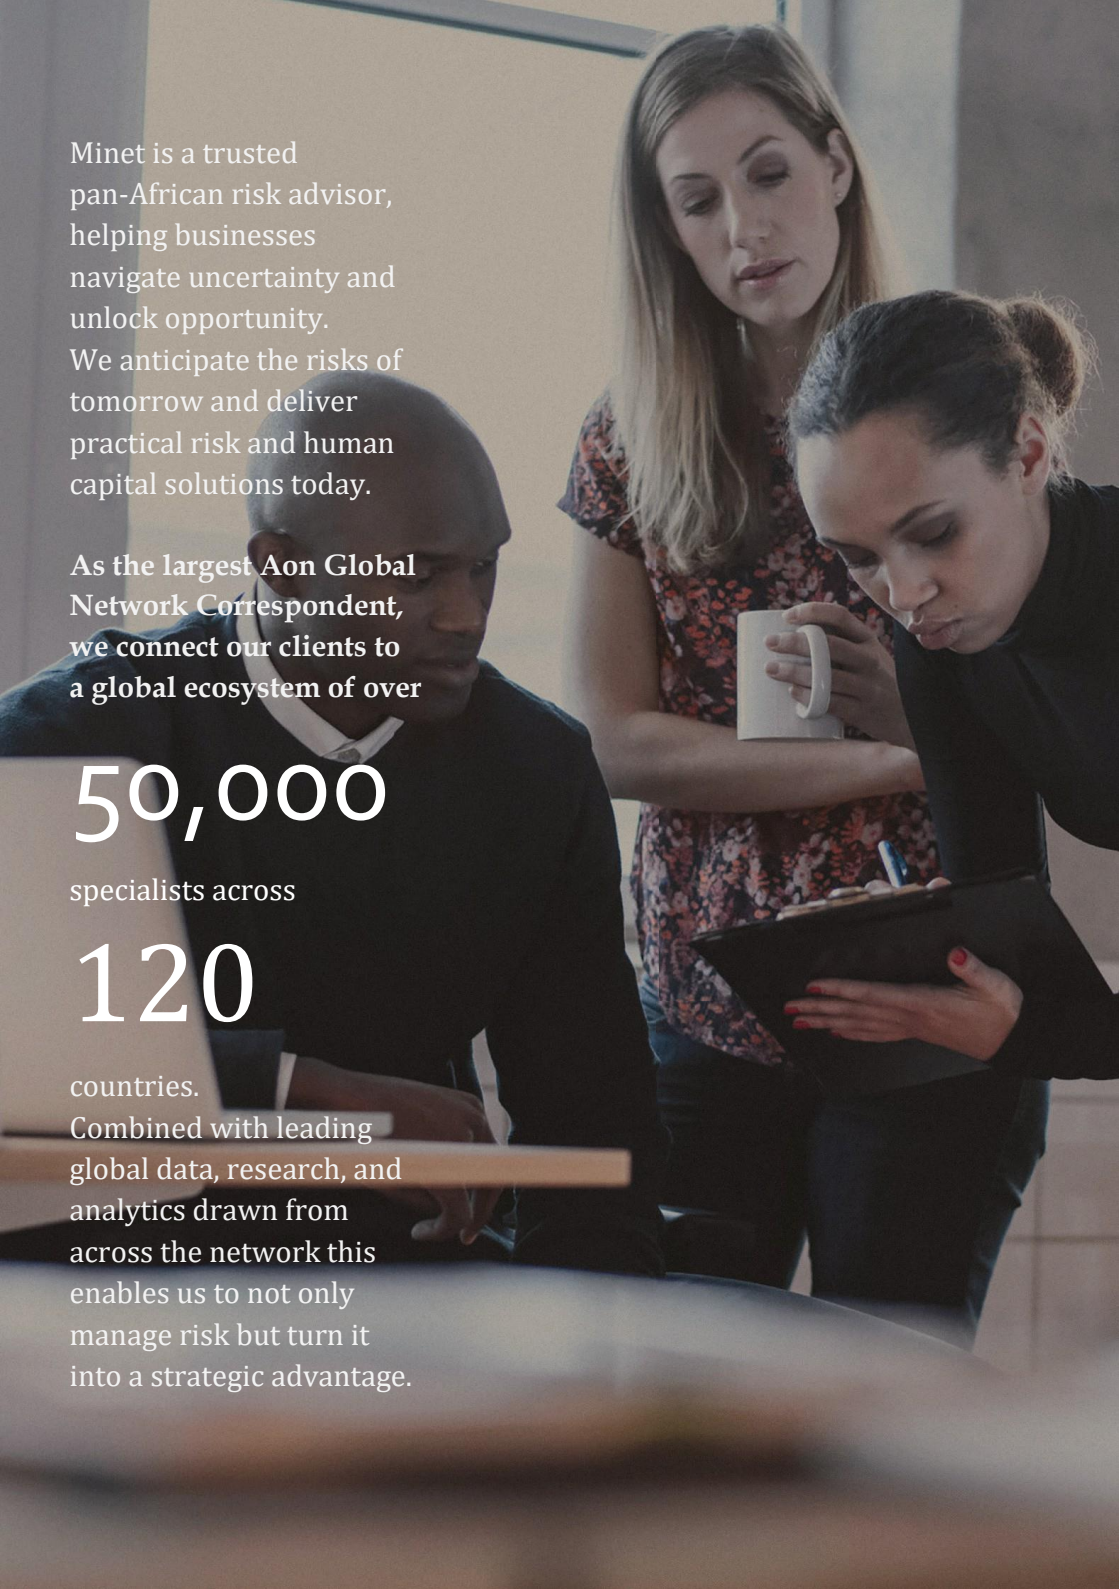

Africa is the second fastest growing region in the world. Low market penetration and one of the world's highest returns on foreign investment are giving way to rising consumer demand, record development of infrastructure and the adoption of new technologies

Source: www.afdb.org

According to Ernst & Young's report, *Africa 2030: Realizing the Possibilities*, as a result of growth drivers including sound macro-economic management, improvement in business environments, diversification, political reform and technology, 24 of Africa's economies are projected to grow at a rate above 5% between 2013 and 2030.

However, continued global political instability and economic uncertainty has made the world increasingly unpredictable, creating a duality of opportunity and risk. Minet is perfectly resourced and positioned to meet these challenges and advise clients.

Minet is a trusted
pan-African risk advisor,
helping businesses
navigate uncertainty and
unlock opportunity.
We anticipate the risks of
tomorrow and deliver
practical risk and human
capital solutions today.

As the largest Aon Global
Network Correspondent,
we connect our clients to
a global ecosystem of over

50,000

specialists across

120

countries.

Combined with leading
global data, research, and
analytics drawn from
across the network this
enables us to not only
manage risk but turn it
into a strategic advantage.

VISION AND MISSION

VISION

Securing Africa's Future

MISSION

To be Africa's trusted risk advisor by delivering innovative and relevant risk and human capital solution, growing sustainable partnerships, and making a meaningful contribution to the communities we serve

VALUES

HONESTY

We value being honest, transparent, and reliable in all our relationships and expect the same in return

EXPERTISE

We use global knowledge and local understanding to provide superior and locally relevant solutions

AGILITY

We are flexible and efficient in responding to the needs of our clients, colleagues, partners, and suppliers

RESPECT

We recognize, appreciate, and embrace diversity and the value of respecting different perspectives from all our stakeholders

TEAMWORK

We believe that working together with colleagues, client, partners, and suppliers multiplies our mutual success

HOW DID WE GET HERE?

Our journey started almost 70 years ago as JH Minet Company. In 1997 Aon, the leading global provider of risk management, human resource consulting and outsourcing, acquired the U.K. shareholder, London Minet, as part of their African expansion strategy.

As a result, the company became Aon Minet, and subsequently Aon. In 2017 private equity firm Capital works acquired Aon's shareholding in several African operations, alongside local shareholders including governments in many markets, which has created what is now Aon's largest Global Network Correspondent.

With extensive coverage across Africa, Minet is uniquely positioned to deliver risk advisory solutions and insights that reduce volatility and improve performance, providing an unrivalled advantage to clients.

Aon | Global Network Correspondent

Our integrated risk and human capital solutions are drawn from a deep understanding of the African market, rooted in over 70 years of on the ground experience and relationships.

1949 - 1997

1997 - 2017

"We maintain a positive outlook for sub-Saharan African as an exciting operating environment. Our pan-African strategy is focused on supporting our colleagues and collaborating closely with local leaders and partners. We believe that empowering colleagues and partners is the most effective way to serve our clients and unlock growth."

John Cullen
CEO, Aon Risk Solutions EMEA

"Our range of products and services has greatly increased and diversified since the inception of the Company in keeping up with the rapidly changing economic and social change affecting risk and people in Kenya"

WHY USE A BROKER?

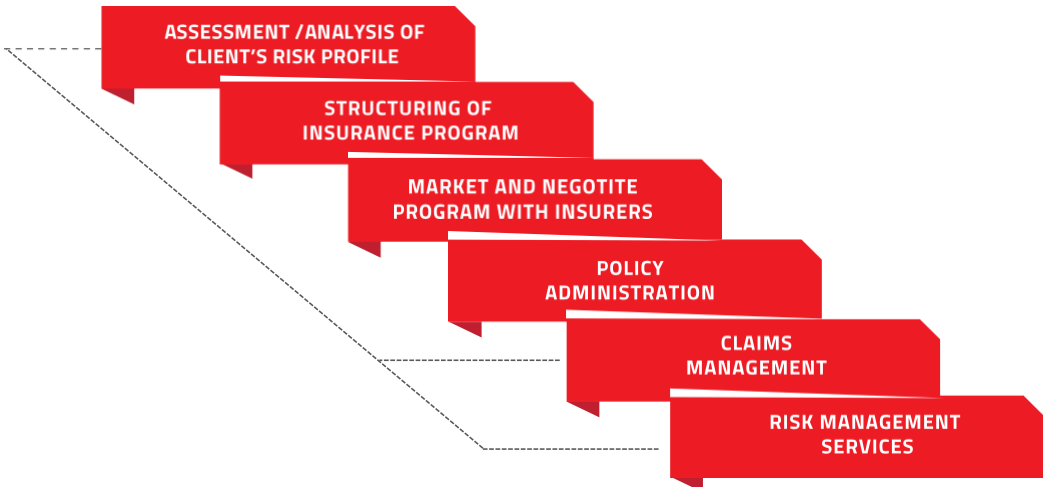

Minet Zambia is an independent insurance and risk consultant who represents and protects the interests of the client.

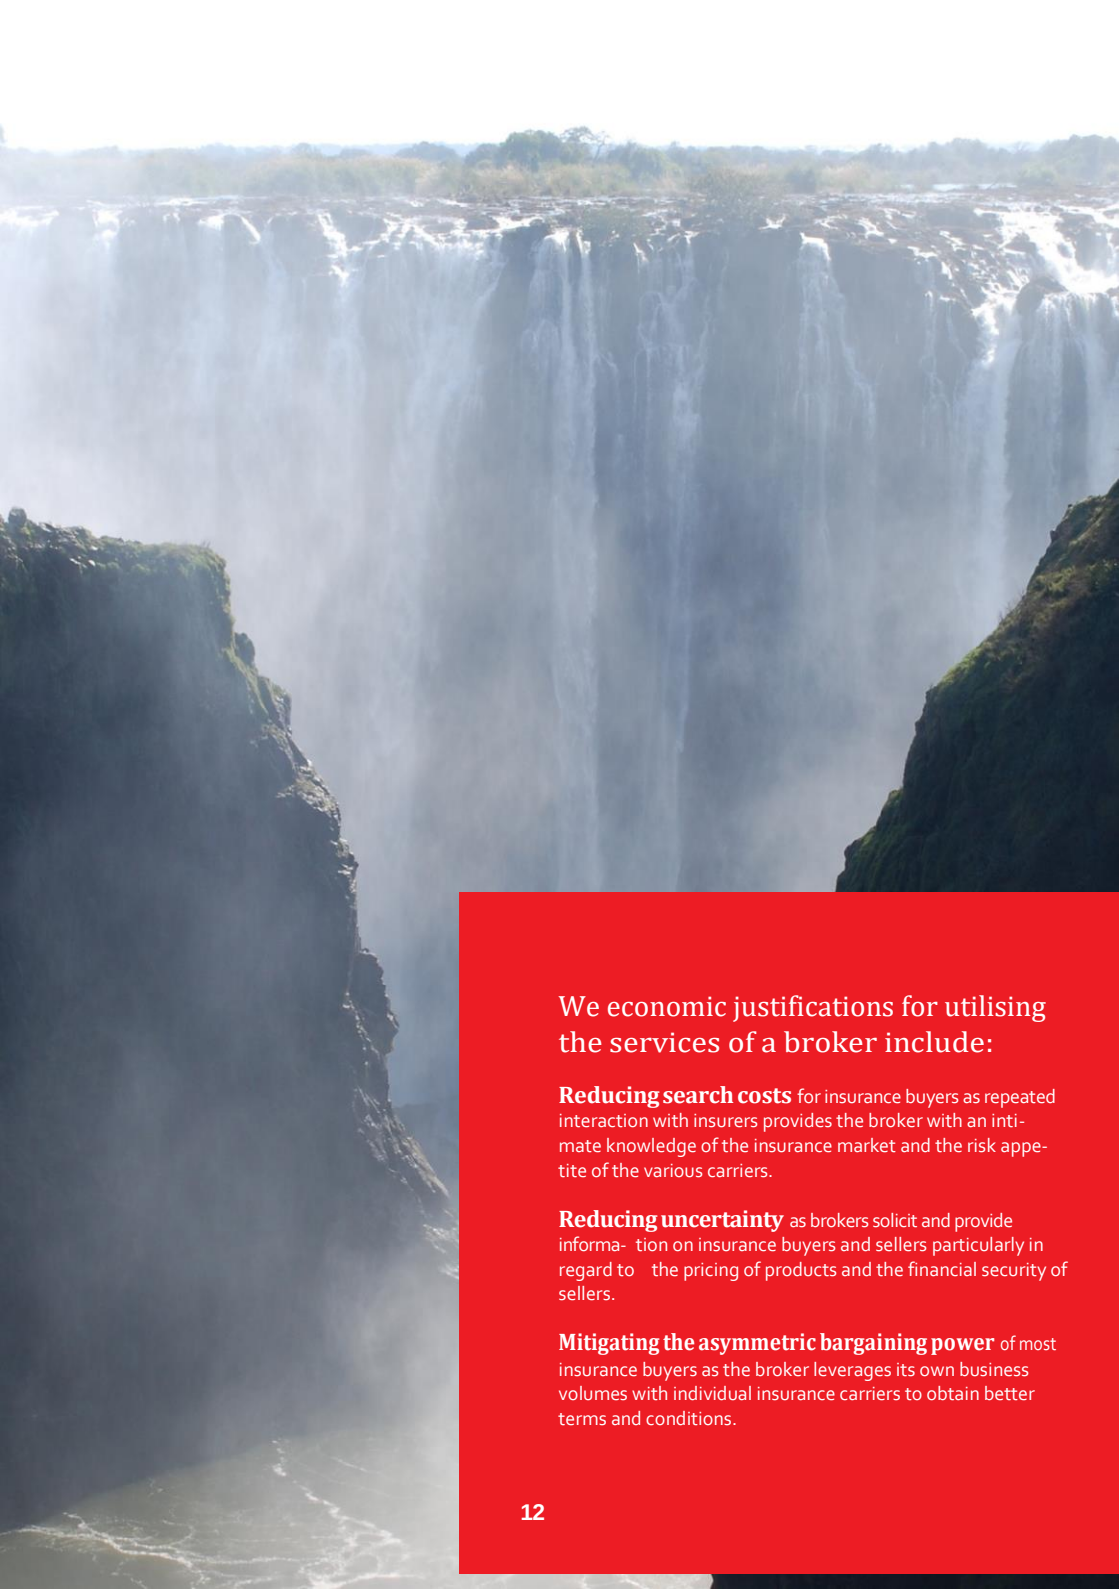

Being independent from insurance and re-insurance companies, Minet Zambia is ideally placed to provide impartial and objective advice to clients concerning their insurance and risk management needs.

As an independent consultant our role incorporates the following activities: -

- Analyzing and assessing the insurance risks faced by clients Structuring, marketing and negotiating insurance programs on behalf of clients.
- Providing advice in regard to policy limits, deductible retention levels and coverage terms Advising clients on the selection of the most appropriate products and providers matching a client's needs with one or several suitable insurance carriers
- Monitoring insurance carrier financial strength and security Providing risk management services, actuarial advice and claims services

We value chain be illustrated thus:

We economic justifications for utilising the services of a broker include:

Reducing search costs for insurance buyers as repeated interaction with insurers provides the broker with an intimate knowledge of the insurance market and the risk appetite of the various carriers.

Reducing uncertainty as brokers solicit and provide information on insurance buyers and sellers particularly in regard to the pricing of products and the financial security of sellers.

Mitigating the asymmetric bargaining power of most insurance buyers as the broker leverages its own business volumes with individual insurance carriers to obtain better terms and conditions.
